Reference for Marek Weigel 19 October 2017

Marek has worked for me at Trinity House for the last 5 years. During that time he has completed a number of jobs, from laying 300 sq metres of York stone patio and paving around a pool, through to a 40 sq metres house extension which involved everything from foundations, brick laying to all aspects of the building and finishing (carpentry, flooring, plumbing and painting) with the exception of the finishing of the roof and the wiring of electrics.

Marek works diligently, turns up on time, and when necessary with a small team to ensure the job is completed as promised. There is no job that he will not tackle, and is honest if it is beyond his experience and capability.

I would not hesitate to recommend him.

Dr Susanne Fischer
